About South Korea

A quick primer for first-time travellers, from currency and weather to getting there from India.

CURRENCY

South Korean Won (KRW). ATMs and card payments are widely accepted in cities; carry some cash for markets and smaller vendors. Indian Rupees are not directly exchangeable — convert to USD or KRW before departure.

WEATHER & BEST TIME TO VISIT

Four distinct seasons. Spring (Mar–May) brings cherry blossoms; autumn (Sep–Nov) is peak foliage season with crisp, mild days — widely considered the most magical time to visit. Summers (Jun–Aug) are hot and humid; winters (Dec–Feb) are cold with occasional snow, ideal for ski itineraries.

POWER PLUGS

Type C and Type F sockets, 220V/60Hz. Indian appliances (230V, Type D/M) need a plug adapter — universal travel adapters cover this. Voltage is close enough that most electronics work without a separate converter.

FLIGHT CONNECTIVITY FROM INDIA

Direct flights connect Delhi and Mumbai to Seoul (Incheon) in around 7.5–8.5 hours on Air India and Korean Air. Other Indian cities typically route via Delhi, Mumbai, Bangkok, Singapore, or Hong Kong. Total travel time with a layover usually runs 10–14 hours.
